Candia Handmade Mattresses

## MONA LOVES CANDIA

Candia's pioneering handmade mattresses occupy the healing properties of olive oil - the only mattress company that processes its fabrics with it - and we love her for that.

Candia uses the finest raw materials and time-honored techniques, it's handmade mattresses are 100% natural free from glue or chemical substitutes. With thousands of springs to fit the shape of each body, we welcome you into nights of uniquely restorative sleep.

All mattresses are available for purchase through the hotel.

Please inquire at front desk.
